Regular	3.86

Avg Monetary by Segment

Segment	Avg Monetary
At Risk	808
Inactive	145
Lost	302
Loyal	6,697
Regular	1,397

Key Insights

- *Loyal Customers (~20%) drive over 60% of total revenue with high purchase frequency and recency.
- *Regular Buyers maintain steady activity – potential to be upgraded to *Loyal* via targeted offers.
- *At-Risk Customers show reduced engagement (avg recency ~85 days). Recommend reactivation campaigns.
- *Inactive/Lost Customers contribute little value; low ROI for re-marketing. Focus on retention of “At-Risk” instead.

Business Implications

Target loyal customers with loyalty perks and early-access programs.
Re-engage at-risk customers with time-sensitive discounts or reminder emails.
Prioritize marketing spend based on segment value and recency trend.
